Dear Mr. Jensen:

According to our records you have a Notice on file with our office, Casefile Number UTU-77784, located in Section 33, T. 9 S., R. 12 W. By regulation, all Notices have a term of two years but may be extended for an additional two years under the provisions of 43 CFR 3809.333. Your Notice will expire on January 20, 2005 unless you notify us in writing of your desire to extend it.

If you fail to extend your Notice, it will expire on January 21, 2005. All operations must cease except reclamation (43 CFR 3809.335). A reclamation plan and schedule must be submitted within 30 days of the expiration of your notice. The reclamation plan and schedule must be accepted prior to any work commencing on the ground. If you fail to submit a reclamation plan and schedule for the existing disturbance at this site you will be in noncompliance. A noncompliance order will be issued and appropriate enforcement actions taken.

If you have any questions regarding the extension of your Notice, please contact Michael Ford of my staff at (801) 977-4360 or Terry Snyder at the Utah State Office. Her telephone number is (801) 539-4026.

Sincerely,

LETTER

Notice/Plan: UTU-77784
Bond Required: \$400.00

Individual Personal Cash Bond Accepted

On January 7, 2003, this office received the Surface Management Personal Bond form and \$400 in the form of cash bond to secure a bond for notice UTU-77784.

The bond has been examined, found satisfactory, and is accepted as of January 7, 2003. The bond covers operations conducted by or on behalf of the principal on the above-mentioned notice. Enclosed is a copy of the bond form and accounting receipt for your records.

The funds will be retained in a suspense account until all terms and conditions of the notice have been fulfilled or until satisfactory replacement bond coverage has been accepted, at which time this office will authorize a refund of the cash deposit.

If you have any questions, please contact Opolonia Abeyta at (801) 539-4123.

Mr. Steven Jensen
1190 West Chavez Drive
South Jordan, UT 84065

Dear Mr. Jensen:

On July 15, 2002, we received your amended Notice to conduct exploratory mining activity on your Rose Hill claim area in Section 33, T. 9 S., R. 12 W., Tooele County.

On July 25, 2002, Ms. Martinez of my staff visited and photographed your proposed activity and found no wooden stakes with red ribbons as noted in your submitted Notice. Your proposed activity must be flagged so that our specialists can locate them in the field. This is required in order to provide proper cultural and biological clearances prior to the onset of operations.

During your telephone conversation with Ms. Martinez on August 22, 2002, you mentioned that additional flagging would be completed on your proposed area by August 26, 2002.

Thank you for your help in this matter. If you have any questions, or require additional information, please feel free to contact Cheryl Martinez at (801) 977-4371.

Sincerely,

BRAD D. PALMER

BUREAU OF LAND MANAGEMENT

Dear Mr. Palmer:

July 12, 2002

Serial No. UTU-77784

We received your letter dated 7-02-02. Concerning our plan of notice. This letter will provide your office answers to the seven following questions:

1. The tax payer I.D. No. is [REDACTED] and we would like this kept confidential.
2. We marked the topographic map to the proposed site on the enclosed map. Which is on existing roads to the base of Rose Mountain. The mine site is halfway up the west side of Rose Mountain which we go on foot.
3. We filled out the reclamation cost estimation form which is submitted with this letter. Our financial guarantee will be an interest bearing certificate of deposit.
4. The proposed exploratory vertical mine shaft does not exist.
5. The 30 foot mine shaft will not be assessable to the public.
6. The main purpose of this proposed exploratory mine shaft is to define the direction of travel of the mineral vein. Once this is found out the mine shaft will be filled in part way with walls slopping so there will be no danger to the public. The tailings will be leveled out and the disturbed area reseeded with the recommended varieties.
7. The proposed mining activities are on claim #4 a copy is enclosed.

Sincerely,

Steven D. Jensen

J. CONTRACT ADMINISTRATION ⁸				\$ _____
K. GRAND TOTAL (E THROUGH J)				\$ <u>300.00</u>

1. For Federal construction contracts. Davis-Bacon wage rates are required. Wage rates also contain Federal Insurance Corporation of America (FICA), State Industrial Insurance System (SIIS) and other required coverage and benefits covering the workforce. If the quoted hourly rates contain FICA, SIIS, Davis-Bacon wage rates, insurance bond premiums and profits, the operator may sign a statement under penalty of USC 1001, that the above listed rates contain these items and that itemization of these costs are therefore not necessary.
2. Miscellaneous items should be itemized on accompanying worksheets.
3. Calculate and use only when mineral processing activities are involved. Fluid management represents the costs of maintaining proper fluid management to prevent overflow of solution ponds through premature cessation or abandonment of operations. Calculate a six month direct cost estimate which includes power, supplies, equipment, labor and maintenance.
4. A contingency cost is included in the reclamation cost estimation to provide for project uncertainties and unexpected natural events. Calculate the contingency cost as a percentage of the operational project costs as follows: up to and including \$500,000, use 10%; over \$500,000 to \$5 million, use 8%; over \$5 million to \$50 million, use 6%; and greater than \$50 million, use 4%.
5. Insurance premiums are calculated at 1.5% of the total labor costs. Enter the premium amount only on this line.
6. Federal construction contracts exceeding \$25,000 require both a performance and a payment bond (Miller Act, 40 USC 270 et seq.). Each bond premium is figured at 1.5% of the total project costs. Enter the sum of both premium costs on this line.
7. For Federal construction contracts, use 10% of estimated project costs.
8. For Federal construction contracts, use 18% of project costs for estimates up to and including \$1 million. Use 14% of estimated project costs over \$1 million to \$25 million and 10% of estimated project costs over \$25 million.

The source of the equipment cost estimate is (Caterpillar Performance Handbook, contractor's estimate, etc.): _____

NOTICE OF LOCATION OF LODE MINING CLAIM
STATE OF UTAH, COUNTY OF TOOELE

KNOW ALL MEN BY THESE PRESENTS, That the undersigned hereby certifies that

LeRoy B. Decker
12241 South 2495 West
Riverton, Utah 84067

has located the Rose Hill 4 Lode Mining Claim on the 4th day of September, 1998, whose dimensions are 1500 feet by 600 feet. By this Declaration and such location, the above named locator(s) claim all veins, lodes, ledges, deposits and surface ground within the boundaries of said claim.

Said claim is a lode claim, it being situated in the above mentioned County and State, and it is distinctly marked on the ground so that its boundaries may be readily traced by four substantial posts or monuments.

To tie this claim to a Public Survey: The NE Corner of this claim is located approximately 12246.02 ft. N 77° 38' 35" E from the SE Cor. sec. 36 T9S. R 13 W S.L.B.M.

This claim is located all or in part of the following projected quarter section(s):

SW 1/4, Section 33, T. 9 S., R. 12 W., S.L.B.M.
1/4, Section , T. S., R. 12 W., S.L.B.M.
1/4, Section , T. S., R. 12 W., S.L.B.M.
1/4, Section , T. S., R. 12 W., S.L.B.M.

in the Tooele County, State of Utah.

Said claim is 1500 feet long by 600 feet wide along the surface and claims 20 feet N 60° E and 1480 feet S 60° W from the point of discovery at which this Notice of Location is posted together with 300 feet on each side of the point of discovery. The general course of the vein or lode is N 60° E.

Mr. Steven Jensen
1190 West Chavez Drive
South Jordan UT 84065

Dear Mr. Jensen,

On June 3, 2002, we received your Notice to conduct exploratory mining activity in the Rose Hill claim area in Section 33, T. 9 S., R. 12 W. Your Notice has been assigned serial number UTU-77784. Please refer to this number on any future correspondence relating to this Notice.

Your Notice cannot be accepted until you provide this office with the following information regarding your proposed activities:

1. Provide your taxpayer identification number of the operator as required in 43 CFR 3809.301(b)(1). If you would like to keep this identification number kept confidential please note this with your submitted additional information.
2. Your submitted topographic map noted the proposed shaft, but there is no location of access route(s) to the proposed disturbed area. As we discussed on the telephone on June 26, 2002, we have enclosed a copy of the topographic map to identify the route(s) of travel to the proposed site. If you anticipate improving the access route(s), please mention your types of improvements and indicate the areas of improvement on this map.
3. Provide this BLM office or the State of Utah a financial guarantee that meets the requirements at 43 CFR 3809.551- 3809.573 before starting operations. We have enclosed a Reclamation Cost Estimation Summary Sheet Example for estimating final reclamation costs. Please be reminded that you must estimate the cost to reclaim your operation as if BLM were hiring a third-party contractor to perform reclamation of your operations after you have vacated the project area.
4. Is the proposed exploratory vertical mine existing?

5. Your Notice mentioned that the vertical opening would be left open for two years. Please describe how you will protect the public from falling into the proposed 30-foot shaft.
6. Describe how you will complete final reclamation for the proposed project area.
7. Provide the specific mining claim(s) where the proposed activities would occur.

We also enclosed a copy of the current applicable Federal Regulations for your use. Thank you for your cooperation. If you have any questions, or require additional information, please feel free to contact Cheryl Martinez of my staff at (801) 977-4371.
